Between Stop Build Day and the week before the FIRST Championship, team updates are published every Tuesday. Between Kickoff and the day of the build interruption, team updates are published every Tuesday and Friday. Except for final matches, winners of individual matches will not be declared, as there's no direct impact on the tournament performance in RECYCLE RUSH.1.2 Manual ConventionsSpecific methods are used in this section to highlight warnings, warnings, keywords and phrases. The keywords that have special meaning in the context of the FIRST Robotics 2015 contest and the RECYCLE RUSH are defined in section 6: Glossary is indicated in ALL capital letters of this text. The alliances compete simultaneously to score points by stacking Toti on Scoring Platforms, limiting those batteries with Recycling Containers, and properly disposing Litter, represented by pool noodles, in designated locations. While the blue boxes are part of the manual, they do not weigh the actual rule (if there is an unintended conflict between a rule and its blue box, the rule replaces the language in the blue box). You should pay particular attention to their content, as they aim to provide information about the reasoning behind a rule, useful information about understanding or interpreting a rule, and/or possible best practices to use when implementing systems affected by a rule. Points for this period are given in Table 1-1.
